

1990's Slap Bracelets

Supplies

- tape measure
- scissors
- duct tape in variety of colors
- glue sealer
- acrylic paint in variety of colors
- stickers and other decorations

Instructions

1. First, cut the tape measure into six inch strips.
2. Trim rounded edges on both ends of the tape measure strips. Then, roll back until it begins to form a circle. The more the tape measure is rolled, the more malleable it will become.
3. Once you have the shape, apply a strip of duct tape a few inches larger than the tape measure strip bracelet.
4. Personalize the slap bracelet with paint, apply stickers, or glitter. Let paint dry completely. Then apply a layer of glue sealer. Two layers may be necessary. Let dry completely.
5. Simply wrap the edges of the duct tape around the tape measure strip. Cut another small strip of duct tape to adhere to the back. Trim a rounded edge.
