

Paper Plate Dinosaur

Supplies

- white paper plates
- scissors
- googly eyes
- paint and paintbrushes
- construction or scrapbooking paper
- mini clothespins
- black sharpie
- glue
- dinosaur head and tail template

Instructions

1. Start by cutting the paper plate in half.
2. Decide the color for the body of the dinosaur and paint one of the 1/2 plate pieces. Paint two corresponding clothespins for each dinosaur.
3. Once the dino body is dry, use it as a template for drawing the dinosaur's spikes, head, and tail. Decide on a long neck, short neck, small tail or long tail! This is where the kids can get really creative!
4. Glue the head, tail, and spikes to the back side of the paper plate. Add a little smile and googly eye to your dino head.
5. Attach clothespins and let the dino roar.
