

Mexican Paper Bag Piñatas

Supplies

- paper sacks (we used lunch bag size)
- colored tissue paper
- glue sticks
- candy (or some other type of goody that will hold up to being hit with a bat)
- stapler
- hole punch
- string
- soft bat or tightly rolled up paper to hit the piñata

Instructions

1. Cut the tissue papers into 3 inch wide strips and fringe one edge like in the photo.
2. Cut the strips into smaller pieces. so the colors can alternate on the paper bag.
3. Draw a line across the sacks where the glue will be added.
4. Run the glue along the lines and apply the tissue paper fringe. Be sure the fringe edge is pointing down towards the bottom of the sack. Add tissue paper to all sides of the bag.
5. Fill the sack with treats. Fold the top over a couple of times and secure with the stapler.
6. Punch two holes and tie a string very securely through the holes.
7. Hang the pinata and hit it with a soft bat until the treats fall.

Thank you
