

Straw Rockets

Supplies

- straws
- tape or glue dots
- plastic pipettes (or straws with a larger diameter than the other set of straws)
- markers, crayons, or colored pencils
- scissors
- rocket template

Instructions

1. Print out the rocket template.
Color the rockets and cut them out.
2. Cut the bottom off a plastic pipette and attach it to the back of a rocket using tape or glue dots.
3. If you don't have any plastic pipettes handy, you can use a straw instead. (Just make sure this straw is wider than the other straw used for launching.) Cut the straw to fit the length of the rocket and tape one end shut so it's completely sealed. Attach it to the rocket with glue dots or tape.
4. Slip a straw into the pipette and launch!
